

HORTISOL

NATUURLIK / NATURAL

A liquid Foliar Feed – Incorporating Seaweed Extract
'n Vloeibare Blaarvoeding – Bevat ook Seaweed Extract

MISSTOF / FERTILIZER GR 1

Reg. No. K6149. Act / Wet 36 of 19470

Registration Holder / Registrasiehouer

Ocean Agriculture (Pty) Ltd.

Re. no. 1969 / 015669 / 07

PO Box / Posbus 741, Muldersdrift, 1747

RECOMMENDATIONS FOR USE:

HORTISOL 6:1:3 (15) is a liquid foliar formulation for use as a nutritional supplement for field and tree crops, commercial and garden ornamentals, pot plants and vegetables. **HORTISOL 6:1:3 (15)** applications stimulate and promote plant growth when applied during active growth phases as well as facilitating plant recovery when applied after stress conditions.

CONTAINS

Macro Elements / Makro Elemente

11% N

1,8% P

5,5% K

6,45% Seaweed

DIRECTIONS FOR USE:

1. Shake container well before diluting the contents at a rate of 1:250. In other words mix 40ml in 10Lt of water or 4ml in 1Lt of water.
2. **HORTISOL 6:1:3 (15)** should be applied as a full cover spray every 2-3 weeks after stress periods or during periods of high nutrient demand. It is advised that sprays be applied in the early morning or late afternoon.
3. POT PLANTS: Water plants as normal by using diluted mix of **HORTISOL 6:1:3 (15)** as stipulated under point one. Don't apply **HORTISOL 6:1:3 (15)** more than twice a month.
4. LAWNS: Apply **HORTISOL 6:1:3 (15)** to lawns by watering can or a suitable knapsack applicator at the rate of 4Lt diluted mix (see point one for dilution) to 10m² or 40Lt of **diluted mix to 100m²**.
5. **HORTISOL 6:1:3 (15)** will not burn or harm the plants as long as it is mixed and applied according to the recommendations.

GEBRUIKSAANWYSINGS:

1. Skud die houer deeglik voordat u **HORTISOL** verdun tot die verhouding van 1:250. Met ander woorde: Meng 40ml **HORTISOL** met 10Lt water of 4ml met 1Lt water voordat dit toegedien word.
2. **HORTISOL 6:1:3 (15)** moet toegepas word as 'n voldekbepuiting elke 2-3 weke na die stres periodes of tydens periodes van hoë voedingstof vraag. Dit word aanbeveel dat bespuitings toegedien word in die vroeë oggend of laatmiddag.
3. Potplante: Water plante soos normaal deur die gebruik van verdunde mengsel van **HORTISOL 6:1:3 (15)**, soos uiteengesit onder punt een. Moet nie van toepassing **HORTISOL 6:1:3 (15)** meer as twee keer 'n maand nie.
4. Grasperke: Dien **HORTISOL 6:1:3 (15)** grasperke deur gieter of van 'n geskikte knapsak toedieningsapparaat teen die koers van die 4Lt verdunde mengsel (sien punt een vir die verdunning) 10m² of 40Lt van verwaterde meng tot 100m².
5. **HORTISOL 6:1:3 (15)** sal nie brand of skade aan die plante so lank as dit gemeng is en toegepas word volgens die aanbevelings.
