Fertilizer / Misstof Gr 1

Reg No./Nr. K 7046 Act/Wet 36/1947

CONTAINS:

BEVAT:

Nitrogen (N) – 112g/kg Phosphorus (P) – 52 g/kg Potassium (K) – 264 g/kg Magnesium (Mg) – 19 g/kg	Stikstof (N) – 112 g/kg Fosfaat (P) – 52 g/kg Kalium (K) – 264 g/kg Magnesium (Mg) – 19 g/kg
--	---

DIRECTIONS FOR USE: USE ONLY AS DIRECTED		GEBRUIKSAANWYSINGS: GEBRUIK ALLEENLIK SOOS AANGEDUI	
Multi-Booster is a watersoluble fertilizer and is suitable for application via an irrigation system in the home garden. Multi-Booster is further ideal to be used as a foliar feed to be sprayed on foliage of plants at a rate of 150 gram / 5 litres of water.		Multi-Booster is 'n wateroplosbare kunsmis wat uiters geskik is om deur 'n besproeiingsstelsel toegedien te word in die huistuin. Multi-Booster is verder ideal om as 'n blaarvoeding op blare van plante toegedien te word teen 150 gram / 5 liter water.	
Roses	Apply 25 gram per big plant or 12.5 gram per small plant in the early spring and repeat every 4 weeks throughout the summer season. Do not exceed the recommended dosage rate. Water well after each application.	Rose	Dien 25 gram per groot plant of 12.5 gram per klein plant in die vroeë lente toe. Herhaal elke 4 weke deur die aktiewe somer seisoen. Moet verkieslik nie die aanbevole hoeveelheid oorskry nie. Maak goed nat na elke toediening.
Flowers, Shrubs and Evergreen Plants	Apply 30 gram/m ² evenly on flowers and in driparea of shrubs in the early spring and repeat every 4 weeks throughout the summer season. Do not exceed the recommended dosage rate. Water well after each application.	Blomme, Struik en Immergroen Plante	Dien 30 gram/m ² egalig op blomme en in die druparea van struik in die vroeë lente toe. Herhaal elke 4 weke deur die aktiewe somer seisoen. Moet verkieslik nie die aanbevole hoeveelheid oorskry nie. Maak goed nat na elke toediening.
Lawns & Home Garden Vegetables	Apply 30 gram/m ² in the early spring and repeat every 4 weeks throughout the summer growing season. Do not exceed the recommended dosage rate. Water well after each application.	Grasperke & Huistuin Groente	Dien 30 gram/m ² in die vroeë lente toe. Herhaal elke 4 weke deur die aktiewe somer groei seisoen. Moet verkieslik nie die aanbevole hoeveelheid oorskry nie. Maak goed nat na elke toediening.
Establishment of new Home Garden Trees	Dig a hole 1,0m x 1,0m and 1,0m deep. Apply 450 gram to half of the excavated soil, mix well and replace in the hole. Place tree in hole with remainder of the soil. Additions of compost improves the soil properties. Water well after planting.	Vestiging van nuwe Huistuin Bome	Grawe 'n gat nagenoeg 1,0m x 1,0m en 1,0m diep. Meng 450 gram by die helfde van die uitgegrawe grond en gooi terug in die gat. Plant die boom in die gat en vul met die res van die grond. Byvoeging van kompos sal die grondeienskappe verbeter. Maak goed nat na plant.
Fruit trees	Apply 250 gram per year of the age of the tree to a maximum of 2 kg in the driparea of the tree. Apply 2/3 at budburst in early spring and the other 1/3 after removing the fruit.	Vrugte-bome	Dien 250 gram vir elke jaar ouderdom van die boom met 'n maksimum van 2 kg egalig in die druparea van die boom toe. Ongeveer 2/3 van die dosis met bod in die vroeë lente, en ongeveer 1/3 na verwydering van die vrugte.
